Greening Your Fleet can mean Green in Your Pocket !!!

More emission constraints coming!

Cities in every state across America are enacting strategic plans to cut diesel particulate matter emissions from school buses, transit buses and construction equipment.

Diesel pollution has been deemed "a significant threat to

Connecticut." Construction and transportation corridors are areas of increased exposure, termed "hot spots" for health risks such as heart attacks, asthma attacks, and cardio-pulmonary disease due to diesel exhaust.

Are they blaming you?

Mothers driving their children to soccer practice see your heavy-duty trucks spewing clouds of black smoke! Your business works hard to meet the demands of our growing cities and towns for transportation and construction, yet is **targeted** by those same cities to reduce black carbon! How can you meet the challenges of conducting business with today's environmentally conscious public?

Position your company as the first choice with ASTM certified BioDiesel fuel blend from Guardian Fuel!

- Seamlessly transitions your diesel fleet to a cleaner program
- Reduces compounds linked to cancer by 80-90%
- Cuts sulfur by additional 60-70% over ULSD
- Cuts emissions like particulate matter, carbon monoxide, and unburned hydrocarbons
- Eliminates big, black plumes
- Safest fuel to use, handle and store
- Extends engine life with superior lubricity

...all for about the same cost as petrodiesel.

Standing behind this bus could be more dangerous than standing in front of it.

Diesel fumes can kill. Demand clean-fuel buses. Call 1-800-NICE-RIDE.

Green Sells!!!

BioDiesel fuel blend from Guardian Fuel & Energy Systems is available right now, so you can begin marketing your transportation or construction company as a **partner for cleaner air** for a healthier future!

Green Sells! Global warming, health costs, and legislation are in the news daily, pointing a finger at any business that might be part of the problem.

ABC's of Greening Your Fleet:

Advertise that you are taking action!

Be part of the solution!

See for yourself how quickly your company rises to the top by doing something good!
